SUMMARY

Final-year ECSE student at KIIT University (2027) with a project portfolio spanning Python, SQL, Power BI, and Generative AI. Proven ability to translate raw data into business insight — from a precision/recall-validated LLM assistant on 100+ pages of government documents to SQL pipelines 40% faster than baseline. Seeking a Data Analyst internship or entry role to apply these skills at scale.

SKILLS

Languages & Query: Python (Pandas, NumPy, Scikit-learn, Matplotlib), SQL (CTEs, Window Functions, Subqueries, Optimisation)

BI & Visualisation: Power BI, DAX, Excel (Pivot Tables, VLOOKUP, Power Query), KPI Dashboard Design

AI & ML: Generative AI, NLP, LLM Integration (ChatGPT API), Predictive Modelling, Precision/Recall Validation

Tools: Jupyter Notebook, Git, GitHub, VS Code

PROJECTS

Generative AI – Indian Budget Assistant | Python, NLP, LLM

- Built a Python-based Gen-AI assistant (NLP + LLM summarisation) to process 100+ pages of Indian Union Budget documents; validated output with precision/recall metrics, achieving consistent context-aware summaries.
- Enabled non-technical users to query complex fiscal policy via natural language, reducing manual document-review time significantly.

Facebook Ad Campaign Performance Dashboard | Power BI, DAX

- Built a Power BI dashboard with 8+ custom DAX measures tracking CTR, CPC, conversion rate, and ROAS; enabled data-driven reallocation of ad budget across 4 campaign segments.
- Engineered ETL pipeline (extract, clean, transform) with time-intelligence measures for dynamic period-over-period comparison.

Social Media Marketing Data Analysis | SQL

- Queried 500K+ row social media dataset using CTEs, window functions, and subqueries; optimised 15+ queries cutting execution time by ~40%.
- Extracted engagement and ROI trends that fed a 3-page stakeholder report with actionable campaign recommendations.

Sales Data Analysis & Reporting | Excel

- Analysed 5,000+ rows of multi-region sales data across 12 SKUs using Pivot Tables and VLOOKUP; identified top-performing segments and built a dynamic dashboard that cut reporting turnaround from 3 days to same-day.

EDUCATION

B.Tech – Electronics and Computer Science Engineering KIIT University, Bhubaneswar	2023 – 2027
Class XII – PCM (CBSE) Delhi Public School, Raipur	2022
Class X (CBSE) Delhi Public School, Raipur	2020

CERTIFICATIONS

Data Science & AI Certification Pylab IT Career Institute, Raipur	2024
